AQUOSS
brings the light

Product overview 2025

An energy- & environmental technology GmbH initiative - mailto: kontakt@aquoss.com

1.1 The “Vital plus” domestic system – the heart of AQUOSS

Comprising the “Vital plus” energising & information module for hexagonal water, LRCs - Life Regeneration Ceramics - and natural crystals; thoroughly purified, energised and structured with life-promoting information; durable and low-maintenance.

Indispensable as a final treatment stage downstream of all filters; can also be installed as a stand-alone solution for water with a low level of contamination.

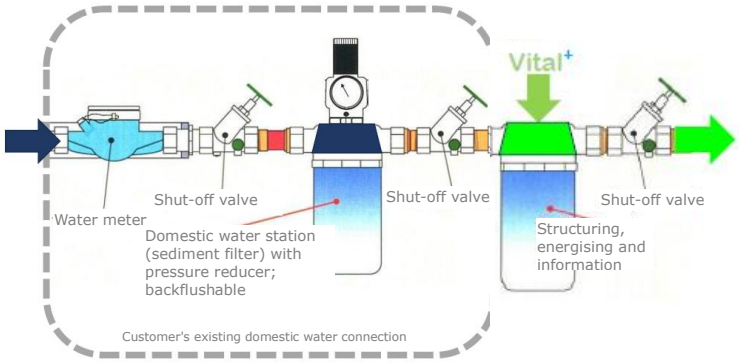
Size	Price
1"	~~€3,342.00~~ incl. 19% VAT

Introductory price €2,999.00

The inner workings

6.8 4.2

Installation diagram



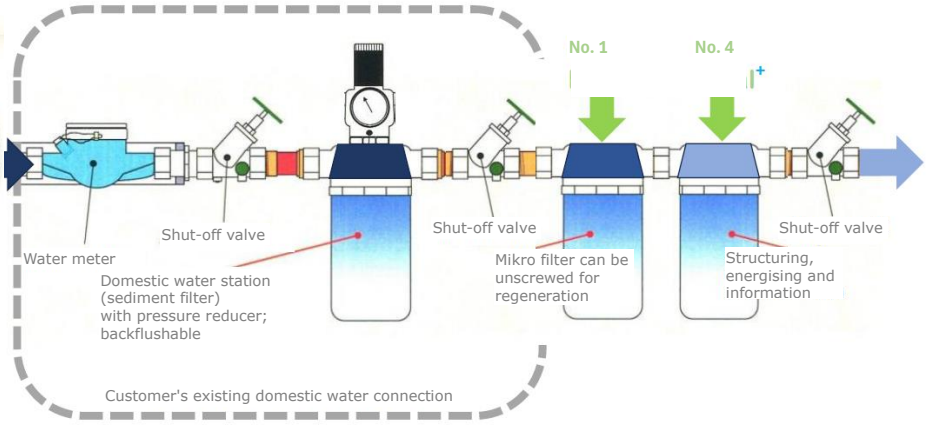
1.2 Domestic system “Vital plus-Duo”

Comprising the “Mikro” filter and “Vital plus” energising & information module with 1.50 m long flexible hoses and pressure difference measurement, ready for connection and pressure-tested.

Can be retrofitted with “Ultra” or “Glyphosate-” filters.

Size	Price as shown
1"	~~€3.987~~ incl. 19% VAT

Introductory price €3,769.00



The inner workings

6.5 6.8 4.2

1.3 Domestic system “Vital plus -Triple”

Basic filter “Mikro”, “Ultra” filter and “Vital plus” energising & information module, with 1.50 m long flexible hoses and pressure difference measurement, ready for connection and pressure-tested.

Can be retrofitted with the “Glyphosate⁻” filter.

Size	Price as shown
1"	~~€4.489~~ incl. 19% VAT

Introductory price €4,269.00

The inner workings

6.5 6.6 6.8 4.2

1.4 Domestic system “Vital plus -Quattro”

Comprises the “Mikro”, “Ultra” und “Glyphosate⁻“ filters, as well as the “Vital plus” energising and information module with 1.50 m long flexible hoses and pressure difference measurement, ready for connection and pressure-tested.

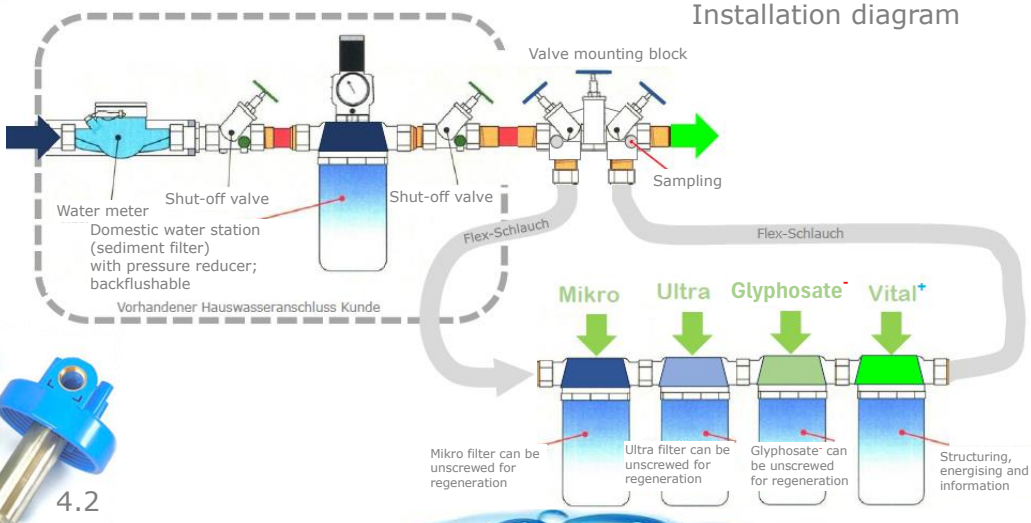
Size	Price as shown
1"	~~€5,187.00~~ incl. 19% VAT

Introductory price €4,899.00

“QUATTRO vario”
System in 2 parts for flexible mounting
Extra charge **€379** incl. 19% VAT

“QUATTRO kompakt”
Arranged in a square layout
Extra charge **€578** incl. 19% VAT

Installation diagram



The inner workings

6.5 6.6 6.7 6.8 4.2

2.1 Extension module Nº. 1: Basic filter “Mikro”

for houses and apartment buildings with low levels of contamination in the water as a system component to supplement the "Vital plus" module (No. 1.1);
can be supplemented with extension module Nº. 2 “Ultra” filter (No. 2.2).
Includes activated carbon block; removes particles > 5 µm;

Size	Price
1"	~~**€570.00**~~ incl. 19% VAT

Introductory price €555,00

2.2 Extension module No.2: “Ultra” filter

for houses and apartment buildings with high levels of contamination in the water as a system component exclusively downstream from basic filter Nº. 1 “Mikro” (No. 2.1)
as a supplement to module “Vital plus” (No. 1.1);
With hollow-fibre polymer fibre filter; removes particles > 0.1µm;

Size	Price
1"	~~**€664.00**~~ € incl. 19% VAT

Introductory price €599,00

2.3 Extension module No.3: “Glyphosate” removal

for houses and apartment buildings with high levels of herbicides in the water as a system component exclusively downstream from system modules Nº. 1 “Mikro” (No. 2.1) und Nº. 2 “Ultra” filter (No. 2.2); as a supplement to module "Vital plus" (No. 1.1).

Contains a new type of anti-glyphosate granulate to remove the weedkiller glyphosate and its breakdown product AMPA.

Size	Price
1"	~~**€698.00**~~ incl. 19% VAT

With introductory discount €668.00

3.1 Individual module “3 in 1”

combines micro-filtering, energising and information;
suitable for the kitchen sink, mobile home or boat.

Combines the special properties of fine particle filtering by the activated carbon block with the information and energising effect of LRC Life Regeneration Ceramics and a range of ground crystals, thus ensuring the adsorption of dissolved pollutants >5µm (chlorine, phenol, pesticides, heavy metals, aluminium, etc.).

Reduces limescale deposits to provide soft, easily digestible water.

Size	Price
1"	~~€982.00~~ Introductory price €899,00 incl. 19% VAT

3.2 Module “α alpha - vital – inline”

½" inline swirler for a tap in the kitchen or shower, perfect for rented flats or businesses, mobile homes or boats

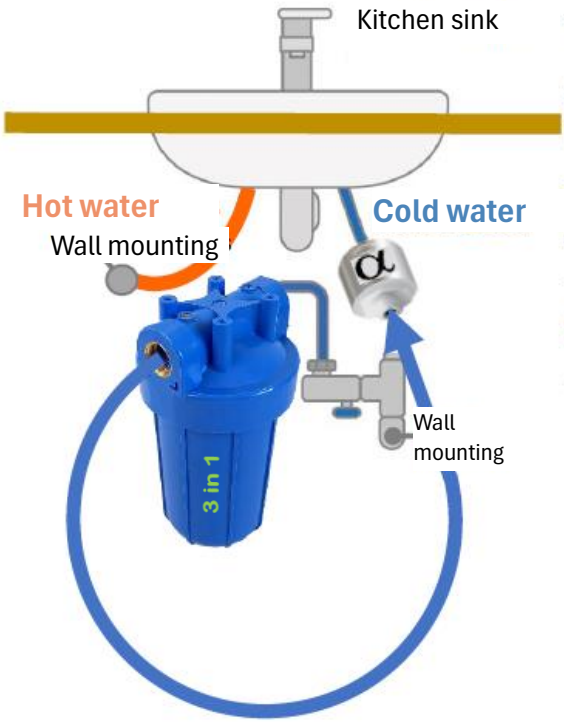
easy to install, durable and maintenance-free;

Magnetising, electrically negative charging and activating structuring module for hexagonal water,

recommended installation downstream from individual module “3 in 1” to improve water quality

€583.00 € incl. 19% VAT

3.3 Below-sink module “alpha+ 3 in 1”



Items 3.1 & 3.2 are combined into a below-sink system and are designed as a space-saving solution for a single tap.

Can be used in motor homes or boats, even for multiple taps, by installing it at the outlet of the water tank.

Available for ½ inch wall connections with different lengths of flexible hose on request.

Supplies two-stage filtered, magnetised, electrically negatively charged and activated, hexagonally structured water.

~~€1,565.00~~ Introductory price €1,482.00 incl. 19% VAT

Product group 4: Commercial applications

Inline swirlers with connection threads of ¾", 1", 1¼", 1½" and 2"

For industrial or agricultural businesses, in particular wineries, food production & horticulture.

Recommended as structuring modules for hexagonal water in order to energise, inform and structure many liquids with a very high water content.

Food products such as milk, wine or juices are magnetised, negatively charged electrically, activated and any incorrect information contained in impurities is removed.

The use of negatively charged "living" water for animals and plants also improves their cell function and performance.

The ***WaterMark certification*** provides certainty regarding hygiene safety, water pressure, flavour & toxins. 100% environmentally friendly, maintenance-free, easy to install and durable.

4.1 Module "β Beta - vital - inline"

Swirlers for installation in pipes or outlet valves, perfect for agriculture and industry, in motor homes or boats;
also for several tapping points or as a system component.

Magnetising, electrically negative charging and activating structuring module for hexagonal water, easy to install, durable and maintenance-free;

Size ¾" **€1,410.00** incl. 19% VAT

4.2 Module "γ Gamma - vital – inline"

Size 1" **€1,987.00 €** incl. 19% VAT

4.3 Module "δ Delta - vital – inline"

Size 1¼" **€2,623.00** incl. 19% VAT

4.4 Module "ε Epsilon - vital – inline"

Size 1½" **€4,154.00** incl. 19% VAT

4.5 Module "Ω Omega - vital – inline"

Size 2" **€9,452.00** incl. 19% VAT

Larger devices (4 inch and larger) on request

5.1 Module “Vital-mobil Gold”

for good water while travelling

€397,00 incl. 19% VAT

without accessories,
we recommend adding the Crystal & LRC (Life Regeneration Ceramics) set

Why gold?

Gold stimulates cell activity and the body's defences. It acts as an antitoxin, helps heal wounds and supports the cardiovascular system. Gold acts as an anti-carcinogen (especially in combination with selenium, platinum, copper and nickel). It aids recovery from fever, rheumatic inflammation and high blood pressure.

5.2 Module “Vital-mobil Chrom”

for good water while travelling

€298,00 incl. 19% VAT

without accessories,
we recommend adding the Crystal & LRC (Life Regeneration Ceramics) set

Why chrome?

Chromium compounds have been shown to help regulate blood sugar, support the metabolism, reduce cravings, regulate fat and cholesterol, prevent high blood pressure and mitigate memory loss.

Activates hexagonal water. It can also be used to structure and revitalise other liquids such as wine, spirits, juice and milk, improving their taste and quality.

Two 1 litre bottles included

Accessories not included

Various crystals & LRCs as a supplement please see Page 8 No. 6.9

Water or juice bottles with a ½ inch PP28 thread, such as those from Lauretana, Mondscheinquelle and others, are also suitable.

Product group 6: Accessories, spare parts

6.1
Valve block size 1" for installation in supply pipe

with sampling & bypass
€178.10 incl. 19% VAT

6.2
Flexible hose approved for drinking water

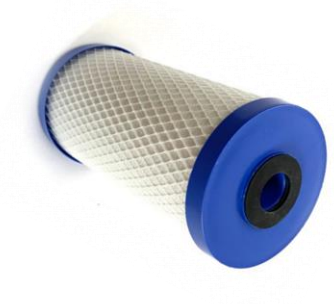
Size 1", length 1.00 m
€52.18 incl. 19% VAT

6.3
Flexible hose approved for drinking water
(see illustration on left)
Size 1", length 1.50 m
€78.00 incl. 19% VAT

6.4

Flexible hose approved for drinking water
(see illustration on left)
Size 1", length 2.00 m
€96.00 incl. 19% VAT

6.5
Activated carbon block for system module №.1



Degree of fineness: 5 µm
not suitable for regeneration
€79.60 incl. 19% VAT

6.6
Ultrafilter for system module №.2

Degree of fineness: 0.1 µm
suitable for regeneration
€189.00 incl. 19% VAT

6.7
Glyphosate- trap for system module №.3

In the event of herbicide contamination
suitable for regeneration
€286.00 incl. 19% VAT

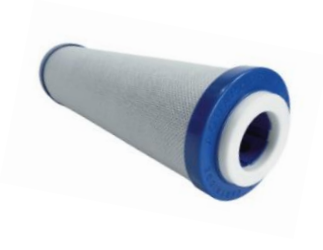
6.8
LRC replacement basket 500 g for "3 in 1" & Vital+ module

purified, energised & informed, suitable for regeneration
€435 incl. 19% VAT

6.9
Various crystals & LRCs (Life Regeneration Ceramics)

purified, energised & informed, suitable for regeneration
€26.00 incl. 19% VAT

6.10
Monoblock activated carbon only for "3 in 1" module



Dimensions:
10" (24.7 cm x Ø 7 cm)
not suitable for regeneration
€96.00 incl. 19% VAT

Product group 6 – accessories, spare parts

6.11
Box spanner for housing cover

suitable for 10" and 20" Big Blue filter housings
€9.80 incl. 19% VAT

6.12
Seal (O-ring) for housing cover

suitable for 10" and 20" Big Blue filter housings
€6.50 incl. 19% VAT

6.13
Centring ring 4½" for filter insert centring

suitable for 10" and 20" Big Blue filter housings
€6.99 incl. 19% VAT

6.14
Brass threaded fitting for screw-on angle valve for fitting the ½" inline swirler α

Brass reducing connector with ½" external thread to smaller internal ⅜" thread
€4.80 incl. 19% VAT

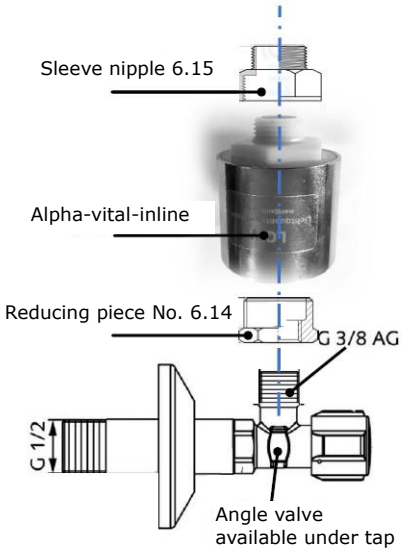
6.15
Brass threaded fitting for flexible water hose tap with ½" inline swirler α

Brass sleeve nipple reducing from internal ½" thread to external ⅜" thread
€4.50 incl. 19% VAT

6.16
Brass double nipple for housing cover connection, external thread 1 inch

nickel-plated, self-sealing, rotatable
€9.85 € incl. 19% VAT

Installation diagram for Nos. 6.14 & 6.15 for the "Alpha-vital-inline" module (No. 2.2)



6.17
2 manometers for measuring differential pressure

incl. 2 transition sleeves for filter wear detection

€123.00 incl. 19% VAT

6.18

Stainless steel frame for QUATTRO for free-standing installation of the system and impact protection

€499.80 incl. 19% VAT

Product group 7: Services

Water analysis

for the recommendation of optimal system configurations for €65.00 incl. 19% VAT and including:

- ✓ Electric charge (in mV)
- ✓ pH value
- ✓ chlorine (Cl_2) and chlorine dioxide (ClO_2) in mg/l
- ✓ carbonate and total hardness (in °dH)
- ✓ current nitrate (NO_2) and nitrite content (NO_3) in mg/l
- ✓ ammonia content (NH_4 in mg/l)
- ✓ iron content (Fe in mg/l)
- ✓ phosphate content (PO_4 in mg/l)
- ✓ conductivity (in ppm or µS/cm)

✓ comprehensive information on the effects of the water's constituents.

Consulting

Based on the results of the above water analysis, the information provided by the local water supplier and an on-site inspection, we recommend the measures that appear necessary and prepare a specific offer.

Presentations

In a clear and informative way our experts explain important facts about water, its effects on our body and ways to maintain good health.

You can book the following one-hour presentations at your premises (fees on request):

1. Water – the elixir of life
2. Mysterious water – beyond ice, liquid and vapour
3. Water, filters and fellow travellers
4. Pay attention to your water... but how?
5. From research – Structure & condition in focus

The above prices (including the current VAT of 19%) are exclusive of shipping costs at the current logistics rates and, if required, goods insurance.
